

AVerTV Volar Green HD

The eco-friendly AVerTV Volar Green HD adopts concealed connector to decrease the damage possibilities, and the compact exterior remains the usability of adjacent USB ports. Besides, the equipped remote control and portable mini antenna, which has strong signal receiving ability, provide you complete control of PCTV viewing.

The latest AVerTV 6 ensures that users are perfectly entertained. By supporting up to 1080i high definition TV viewing, AVerTV Volar Green HD offers users to watch and record HDTV programs. Even better, you can plan the recording schedule, or record directly in iPod format to make your favorite shows on-the-go.

AVerTV Volar Green HD is certified by Windows Media Center Additional Qualification (WMC AQ), which guarantees the enhanced performance and superb stability on Windows Media Center (WMC) and the first-rate PCTV experience.

Introduction of AVerTV3D

Intuitive User Interface

AVerTV 3D provides you an intuitive user interface with frequent-used function buttons listed right on the toolbar. You can easily switch channel, adjust volume, or watch the astonishing and immersive live 3DTV with one click, just like the same way you do with TV.

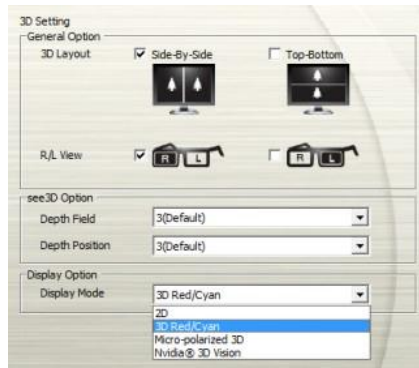

Transform 2D Live TV into 3D

If you can't wait until 3DTV to be broadcasted, the exclusive see3D technology can transform all the 2D live TV recordings and movies into a fantastic 3D experience!

Comprehensive 3D Display Mode

To get the immersive 3DTV viewing experience, we recommend you to watch 3DTV with NVIDIA 3D Vision Kit. Besides, AVerTV 3D also supports anaglyphic and polarized 3D display modes.

Exclusive Color Enhancement

The Color Enhancement adjusts video quality and show the astonishingly sharp and vivid video color. De-interlace with Smooth Edge Option gives you the stable and smooth video quality without overeating CPU resource.

System Requirements

- For MPEG-2 Recording and TimeShifting
- Intel® Pentium® 4 1.7GHz
 - AMD Athlon™ XP 1700+
